

Raw KCI across gain pairs: No-Gain vs Gain + SS/GradNorm

■ No-Gain ● Gain0.05+SS0.001 ▲ Gain0.05+SS0.01 ◆ Gain0.05+SS0.05 + Difficult-GradNorm

A In-range

B Soft-OOD

Higher Raw KCI means stronger sign agreement with ANN-reference gradients; it is not direct process-physics validation.
